REISSUE APPLICATION DECLARATION BY THE INVENTOR

Docket Number (Optional)
104-R001

As a below named inventor, I hereby declare that:

My residence, mailing address and citizenship are stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is described and claimed

in patent number 6,346,972, granted February 12, 2002, and for which a

reissue patent is sought on the invention entitled _____

VIDEO DISPLAY APPARATUS WITH ON-SCREEN DISPLAY PIVOTING FUNCTION

the specification of which

☒ is attached hereto.

☐ was filed on _____ as reissue application number _____
and was amended on _____
(If applicable)

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.

☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.

☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

One error being relied as a basis for a reissue is that independent claims 1, 5, and 13 contain unduly limiting features including for example "a pivot circuit section and a scale converting section" (claim 1), "a frame rate converted section; an on-screen display (OSI) generating section; a pivot circuit section; a scale converting section; a control section; and a driving section" (claim 5), and "pivot circuit means; scale converting means; and control means" (claim 13). These and other features recited independent claims 1, 5, and 13 unduly and erroneously limited the scope of patent protection for the invention described in U.S. Patent 6,346,972.
